This index covers Volume 30 of *The Journal of Business Communication*. It is arranged by author/title, title/author, and keyword. Reviews are indexed separately.

The numbers 30:1:5-28: January 1993 represent the volume (30), issue (1), page numbers (5-28), and date respectively. In the case of reviews, only the beginning page of the review is given. The name of the reviewer or review editor appears at the end of each review citation. The author index includes the names of all authors; where there is more than one author for any article, entries are made under the name of each coauthor also. The title and keyword indexes together provide a subject approach.

The index to Volumes 1-10 was published in 1976 (Volume 13, number 4); the index to Volumes 11-16 was published in 1979 (Volume 17, number 1). Subsequent indexes have appeared annually; the preceding volume's index appears in the first issue of the subsequent volume.
